Saturdays 4.00 p. m.
Leave DETROIT Mondays and *Saturdays
9.00 a.m., and *Wednesdays and
Fridays 9.30 p. m.
*Commencing June 1st.
Send for illustrated pamphlets.
The Popular Scenic Route
BETWEEN
CHICAGO, NEW YORK and PHILADELPHIA.
SOLID VESTIBULE TRAIN SERVICE VIA
Grand Trunk Railway System
IN CONNECTION WITH THE
Picturesque Lehigh Valley Railroad, via Niagara Falls.

GRAND TRUNK NEW SINGLE ARCH DOUBLE TRACK STEEL BRIDGE
OVER THE NIAGARA RIVER.

The new bridge is a single steel arch of 550 feet in length, supplemented by a trussed span, at either end, of 115 feet in length. This with the approaches, makes the total length of the bridge slightly over 1,100 feet. The railway tracks surmounting the bridge are 225 feet above the water. The bridge has two decks or floors. On the upper floor there are two tracks for railway purposes exclusively, while the lower floor contains a wide central carriageway, double electric railway tracks, and on either side passages for pedestrians.

As an evidence of the enormous strength of this beautiful structure, the arch is designed to carry on each railway track a load of two locomotives with four pairs of drivers each and 46,000 pounds on each pair, followed by a train of 8,000 pounds per running foot, and is designed to carry in addition a live load of 3,000 pounds per running foot on the lower floor. The general public will, however, probably be better able to arrive at a correct understanding of the enormous sustaining power of the new bridge by the fact that it is calculated to sustain a weight of something over six times the sustaining capacity of the historic Suspension Bridge, which it replaces.

DIRECT LINE FROM CHICAGO TO
Detroit, Mt. Clemens, Saginaw Valley, Toronto, Montreal and All Canadian Points. Also Boston, via Montreal.
